BY TELEGRAPH.

Noon Dispatches.

MONTGOMERY, February 10.—A dispatch from Montgomery, Ala., just received, says that section has gone against the proposed Constitution. The vote here and in heavy negro counties gives eleven thousand against the Constitution. The votes will be counted tomorrow—Tuesday.

NEW YORK, February 10.—The *World* has the following special from Montgomery, Ala., of the 9th:

Returns from seventeen counties, among them seven of the heaviest negro counties in the State, show four thousand less than the required one-half. Information from North Alabama, where the registered whites largely outnumber the negroes, report the vote very meager. The white vote, so far as reported, does not aggregate one hundred and fifty in the whole State up to to-day. The Constitution is certainly defeated. Efforts are being made to have the polls reopened, but it is understood here, from high authority, that it will not be done without orders from Washington to that effect.

An Atlanta special to the *Tribune*, acknowledging the defeat of the negro Constitution, says the result of the Alabama election is yet uncertain. The system of proscription adopted has greatly reduced the number of white voters.

The Montgomery *Mail* promises to publish, on Tuesday, a black list containing the names and places of business of all white men who voted for the Constitution.

The success of the Constitution now mainly depends upon the result in North Alabama. No election has been held in some counties in that section, the loyal voters being frightened off by threats of vengeance of the unregenerated rebels. In those counties Gen. Meade will doubtless order a special election and see that the voters are protected. Gen. Meade left Montgomery for Atlanta this morning.

A Havana special to the *Herald*, dated the 9th, contains the following: The powder that was shipped via Hamburg, on the brig Frederico, supposed to be intended for Mexico, has been stopped. The subsidy on the Spanish mail steamers, plying between here and Vera Cruz, is $2,000 per month. Imports at Havana are made liable to pay the duties in advance, the clause requiring security therefor being abolished, but custom-house officials are made responsible for securities on hand until after maturity.

A magistrate was recently assassinated near Bejucecl, and Senor Jose Frico Dulbros, brother of Don Pascas, is also dead.

The latest advices from Caraccas and Venezuela are to the 23d ult.

Up regnp the insurrectionary troubles were diminishing, but Gen. Miguel, commander of the national forces, and Minister of War, was killed in the action in Cojedes.

Gen. Gonzales and Cordeaus had revolted, but were not killed.

The general situation of the country is critical.

President Falcon has announced his cabinet.

Panama letters to February 1 state that dates from Gautemala contain an official denial, on the part of the Minister of Foreign Affairs, of a report of war being imminent between that country and Mexico.

Additional advices from Lima, Peru, say that Canseo is on his way to the capital with his victorious army. Arequippa and Balta had already arrived, and announced their determination to support Gen. Canseo in the legal rules. Quo hundred of Canseo's men were killed by the explosion of the Prados powder magazine.

The United States steamer Nyack, with Gen. Brado on board, bound for Valparaiso, had not been heard from, as she didn't touch at any Peruvian port.

ALABAMA ITEMS.

—Mr. Wm. Orr, of Limestone, slaughtered a hog of his fattening, weighing 525 pounds.

—The Huntsville *Independent* of the 9th says: "It has strangely occurred that each day closes with between three and four hundred votes. Yesterday the minimum number was realized, making a sum total of 1415 for the four days at this box. The number at Madison Station is 420, and at Maysville about 300. It will be a very close vote in this county, but we hope ratification will fall by a few votes. News from Morgan county is that a light vote has been cast."

—The *Mountain Home*, of Talladega, very sensibly advises the planters in that section. It says: "The high prices offered for cotton the past week will, we fear, induce planters to engage more largely in its cultivation the coming season. We would urge upon them the importance of first securing subsistence, and if they then have a surplus, plant in cotton."

—In Limestone county, 482 votes were polled in two days, and 552 in Florence. In Montgomery, three days, 4500 votes polled.

—There were 1100 votes polled in Montgomery on the 5th, including five whites, four of them candidates. The election progressed very quietly.

—In Grard, Russell county, there were 686 votes cast on Tuesday and Wednesday. If any whites voted, they were candidates for some office. In Crawford, same county, 169 votes had been cast up to noon Wednesday. At the time of writing this, we have heard nothing from Silver Run, the other voting place in the county. Russell registered about 3450 votes last fall, and cast 1774 votes for Convention.

—In two days 1954 votes have been cast in Selma, only six whites in the number. In Marion, Perry county, 870 votes were cast the first day, one white.

—In Lee county, 1043 votes have been polled in both days; all negroes but two no disturbances have occurred.

—In the two days' voting at Mobile 3536 negroes voted and 86 whites. Everything quiet.

—As far as heard here 642 votes have been cast in Macon county, not a white man voting.

—Two days' vote at Evergreen, Conecuh county, resulted as follows: Negroes 283; whites 4

—About 400 negroes voted in Greenville on Tuesday, and about the same in Wetumpka. A few white candidates also voted at each place.

—We are informed that 460 votes were polled in Hayneville, Lowndes county, Tuesday. All negroes but three.

—The Eufaula *News* says: The result of the re-registration just completed in this State, shows a difference in favor of the whites of nearly three to one.

GEORGIA ITEMS.

—C. C. Richardson, shot by Capt. E. M. Timony, at Atlanta, has since died. Both were Radicals, the deceased having been a member of the Black and Tan Convention.

—On Wednesday night, at Atlanta, a Mr. Scanlan shot a Mr. Thomas, the ball striking the forehead and glancing off.

—The Macon *Journal and Messenger* and the Savannah *Republican* have declared their preference for Andrew Johnson as the nominee of the Democratic or Conservative party for the Presidency, and the last Atlanta *Intelligencer* runs up the name of President Johnson, subject to a nomination.

—The Rome *Courier* of the 8th says; A rencontre occurred on Thursday evening last between Maj. Z. B. Hargrove, of this city, and a man by the name of Bowen, from Polk county, which resulted in Bowen's receiving nine buckshot in his right side, from a double barrelled gun in the hands of Hargrove. The affair grew out of some misunderstanding that originated just before the close of the war. Bowen died in a few hours after. He leaves a wife and several children.

—At Augusta, a day or two since, a negro named Lindsay Clark was shot and killed by a lad named Michael Sullivan. Clark, in company with other negroes, entered the bar-room and insisted on gambling in the room. The boy Sullivan informed the party "they could not gamble there;" whereupon Clark vehemently abused and cursed the boy Sullivan, who seized a broom and made toward the negro. Clark took the broom from the boy, struck him with it and again cursed him. Sullivan ran behind the counter, seized a pistol and shot Clark with the result above stated.

—Tuttle H. Audas, for more than thirty years Clerk of the Superior Court of Hancock county, and a gentleman greatly respected and esteemed, died in Sparta on the 20th ult., in the seventy-third year of his age.

Capt J. P. Young, formerly of the steamers Ben. Stickney, Continental and other of our finest New Orleans passenger steamers, but more recently of the firm of Baker, Young & Co., was married at Philadelphia on Thursday, the 30th ult., to Miss Lucy Fricke.

THE ice on the Missouri river at Omaha is twenty six inches thick.

NEWS ITEMS.

—A Chicago paper thinks it ominous that just as Chicago, the city, is being swept by fires, the City of Chicago, ocean steamer, gets on the rocks and is lost, and the City of Chicago sleeping-car, of the Pullman line, and also the Silver Palace Chicago, of the Allentown line, are burned up.

—George Bibbey & Co., and Coney & Hicks, brewers, in Glenn's Falls, N. Y., have been arrested for making incorrect returns.

—One of the most terrific storms ever known in New Foundland, was experienced within the last two or three days. It is said that thirty people perished from cold and in the snow.

—On Wednesday last a fire broke out in Spring Hill College, Ala., which threatened to destroy the building. It was fortunately extinguished, not, however, before two thousand dollars' worth of damage was done to the library, in which the fire was first discovered.

H. Jackson, the conductor, John Farrell and Tim. Collahan, brakesmen, and a colored man named Bob, the cook.

—In Marshall county a negro named Bob Hogg threatened the life of Minor Aikin, and made a lunge at him with a knife, shouting "Hurrah for Brownlow," when Aikin stepping aside caught up a gun and shot him. Some negroes in the neighborhood vowed to avenge Hogg's death.

PATENT MEDICINES.

MRS. JACKSON'S
Queen Bess Complexion Wash.

THE following certificates, selected from hundreds in the possession of the proprietress, are confidently submitted to the public:

MRS. WOLCOTT'S CERTIFICATE.

QUINCY, ILL., November 5, 1866.

MRS. JACKSON, *Dear Madam*—It is with pleasure that I certify to you, that seeing one of your certificates, which contained the names and indorsements from the best physicians and the highest medical authorities of the United States, recommending your elixir for the complexion and teeth were purely the oils, extracts and essences of flowers, and they warrant it to be used according to directions to cure the worst and most difficult cases of nursing sore mouth, canker of the stomach, bowels and dyspepsia. For scrofulous disorders, when used both internally and externally, it has no equal. Dear Madam, seeing this, and my little daughter, aged fifteen months, having the whooping cough for several months, and could not take what the doctors call white canker, her mouth and throat being terribly ulcerated, and I having tried everything for its relief I could hear of, all to no purpose, I bought one bottle of your "Queen Bess," went according to the directions, did not use quite one bottle, and I am most happy to state to you that it has cured my child. She is now as well and healthy as ever she was in her life. I give you this, my certificate, hoping you will publish it, that thousands of others who may be afflicted with any of the above affections may at once get a bottle of your "Queen Bess," for I feel sure they will find immediate relief.

Yours respectfully,
MRS. GEO. WOLCOTT,
Jersey street, bet. Sixth and Seventh.

MRS. WM. R. COLLINS' CERTIFICATE.

HANNIBAL, MO., August 22, 1866.

MRS. JACKSON, *Dear Madam*—I am most happy to inform you that after having suffered more than three years with what some physicians call nursing sore mouth, or canker of the mouth and throat, I tried various remedies, but found nothing to do me any good until I heard of your oils for the complexion and teeth, called "Queen Bess." I bought one bottle went according to directions, and am truly thankful to say I have found a permanent cure. Hoping you will publish this, that other poor sufferers may be benefited by it, I remain,

Yours respectfully,
MRS. WM. B. COLLINS.

OUR CITY AFFAIRS.

The proceedings of the Board of Aldermen, published on our local page, will be found interesting. The report and resolutions with proposed amendments to the City Charter, adopted at the meeting on Saturday, were read and ordered to be spread on the minutes, but did not meet with the approbation of the Board. It was considered that the meeting through the adopted report, had in some respects, transcended its legitimate prerogative, and omitted altogether the main object, for which the Acting Mayor had invited a consultation between leading citizens and the Board. The result of the consultation had not been satisfactory, and for all the good done might have been dispensed with. The communication of the Acting Mayor sets forth the fact that for the most part the recommendations of the meeting were anticipated by provisions already existing, and where this was not the case, there was so much that was absurd, commingled with what might be of advantage, it was very properly disregarded and set aside.

It was asserted in the presence of the Board, by a member, that one of the leading meeting-committee men, of reputed wealth, was indebted to the city in a good round sum, the payment of which would greatly relieve the pressure upon the city finances. If the figures used were correct, the amount, if restored to the city, would run the city government for sixty days, which would be of greater service than all the resolutions and proposed charter amendments offered, if there had been ten times as many of the same character as those adopted by the late meeting.

The condition of the Fire Department demands special attention, and with it the statement with regard to the several underwriters, who are most deeply interested in the maintenance of an efficient corps of firemen. The engine-houses and apparatus are already provided, horses, harness and stabling, and in the emergency now existing, when the most stringent necessity has involved the city, it was but natural to expect some aid from this source. It might be well for those who are interested to reconsider the determination to stand aloof and suffer the city to struggle through her difficulties, if she can, without their aid and co-operation. It would be a sad spectacle, indeed, to see the engine-houses closed, their bells muffled, and the heroic men who have been always ready to face peril and use their best efforts against the devouring element, standing listlessly among the idle spectators, while the flames are leaping from roof to roof and bearing desolation and ruin in their progress. To adapt their policies to the new situation would involve a vast amount of labor to the several offices, which would more than counterbalance the expense of assisting to maintain the department in its present well regulated discipline.

The value of scrip seems to be much harped upon, as being the mill stone weighing upon the city's credit. The outstanding amount is estimated at $600,000, and the most vigorous orders are in force against increasing the amount. Tax payers, of every degree, are availing themselves whenever in their power to diminish the sum total by discharging their respective obligations in this depreciated *currency* at dollar for dollar. If the authorities had breathing space, and could carry on the city government without encroaching on the rigid rule of issuing no scrip, the curtailment alone would enhance its value. It would comparatively cease to be the source of contention in daily barter, and soon acquire some fixed value at which it might be bought to subserve the purposes of those who wish to reduce their tax list in that mode, and are not patriotic enough to forego the satisfaction of making money even while contributing to the city revenue.

The tax privileges even are now paid in scrip, and boats that discharge their cargoes here and avail themselves of the conveniences of the landing, are provided with it, to pay off their wharfage. In this way, the city is forced to incur all the disadvantage of depreciation, and receive a third of what is legitimately due for the whole, thereby losing the other two-thirds on every transaction Not to take it at its face, although not so issued, would be regarded as repudiation, and it is the object to be honest, although a heavy penalty is being paid for unskillful financiering and inconsiderate legislation in throwing a large amount of scrip upon the market to equalize its value to cash in payment of obligations incurred, *employes* and contracts.

The sale of the city property at this time would be suicidal, and could not be advised, save by those who would like to invest at very reduced rates. The millions of dollars worth of real estate should not be sacrificed for a song, but be so controlled as to render it available in some sort, toward the liquidation of the indebtedness of the city, without its absolute sale. It might be used collaterally as the basis of bonds, in funding so much of the debt as men with large enough hearts might be found content to take such securities. More anon.

CASTOR BEANS.

The attention of agriculturists, as we hope our people who cultivate the soil may hereafter entitle themselves to be contra-distinguished from *planters*, has been of late directed to the *palma Christi*, a plant whose bean is so extensively employed in the manufacture of castor oil. A great many reasons are given for its culture, some true and some rather apocryphal. Any soil that will bring good corn will yield a fair crop of the castor bean. It needs about the same preparation and about the same cultivation. A brief soaking in tepid water, as with corn, will start the germ without unnecessary delay, and thereby save some days which otherwise would be spent in germinating. It is a hardy and luxuriant plant, and the shadow of its broad leaves will in a measure defend it from the rivalry of weeds, which it will soon out grow. We have seen it urged that the plant is a great fertilizer, which we have seen contradicted, and we believe with justice, because it is too luxuriant not to be exhaustive, although it may not be as materially so as tobacco, or even cotton, and may return some qualities of fertility to the earth, from which it has drawn so much richness. For the truth of the following assertion we will not vouch, although it is pretentiously paraded and impressively recommended: "It is one of the most fertilizing crops raised. In this respect it surpasses even clover. Many farmers say, for fertilizing purposes, a crop raised upon land is worth several dollars per acre to the land on account of the additional fertility gained by it." We do not believe it, and consider the statement an exaggeration, as to the promised yield in cash per acre, the average yield of beans being rarely above twenty-five bushels, and the price depending in an inverse ratio to the supply. The fancy estimates should be well weighed before engaging in a large crop, and must have been suggested by those who have a quantity of *seed beans* for sale that could not be disposed of at the reduced prices of last year, which were as low as $1 50 per bushel, although they rallied to $2 and $2 25, late in the season. There is no doubt that there is an extensive demand for the castor bean, and the oil from it may be much used "for lubricating and as an excellent oil for the hair." Every farmer might try a few acres, but it won't do for a special crop, for if every one were to raise castor beans, the growing fields would look luxuriant and beautiful, but the supply would exceed the demand and the price drop to zero. There will not be wheels and cogs enough to lubricate, or heads to grease, but if it will physic Radicalism out of the country, or oil it so as to be propelled easily away, we have no objection to a surplus crop, even though the price be next to nothing and the stock should be far beyond all ordinary exigencies.

An Elopement.

The Louisville papers have a rare bit of scandal of the arrest of Mrs. Charles Arthur and Dr. J. L. Stevens, of Nashville, who had wandered rapidly to that city from the domestic fold. The Doctor had just arrived, when ubiquitous Bligh, who had been *dispatched*, pounced on the fugitives just as they were entering a hack to convey them to the Hoosier State. The wife consented to return with her mother, but refused to be comforted by her husband, imprudent woman!

Special Dispatch to Memphis Appeal.]

DRAWING FOR SEATS.

WASHINGTON, February 10.—After the expiration of the morning hour to-day, the House of Representatives presented a most ludicrous scene. Sundry resolutions were offered to add to the general amusement, but the House, in accordance with a resolution previously adopted, proceeded to draw for seats. The members were all required to vacate and crowd into the lobby in the rear of the outer semi-circular row of seats. Here they stood for some moments, while the comedians of the body got off some good things to the great amusement of the galleries. One would call out "Mr. Speaker, I rise to a question of privilege," which would be immediately followed by a member on the opposite side of the House, exclaiming, "Mr. Speaker, I call the gentleman to order. A member addressing the Speaker should rise at his seat."

An attempt was made to rescind the resolution ordering the new deal, and the drawing commenced. As the names were drawn from the box, they were announced by the Clerk and the lucky members stepped within the bar and located by common consent. Messrs. Stevens, of Pennsylvania, Washburne, of Illinois, and Thomas, of Maryland, were to retain their old seats. Mr. Poland, of Vermont, the author of the resolution ordering the new drawing, secured the first choice, and Gen. Logan the second. Mr. Boutwell's name being called, he rushed across the hall, passing his old seat, and located near the great commoner, who complimented him on his good taste.

IMPEACHMENT RENEWED.

The plans and determination of the Reconstruction Committee have been fully developed to-day. The old impeachment testimony has been referred to these new prosecutors to work over, and Mr. Stevens assured a friend that the matter would not be as badly botched as it was in the hands of the Judiciary Committee. There are five members of the Reconstruction Committee ready to report articles of impeachment as soon as they can be prepared, viz: Stevens, Boutwell, Bingham, Farnsworth and Paine. Brooks and Beck, Democrats, are opposed, and Hulburd and Beaman Radicals, are doubtful on the final vote. In order to secure possession of the Ashley and Conover testimony against the President, the Radicals agreed to a resolution offered by Mr. Brooks, of New York, calling on Gen. Grant for any further correspondence with the President on the subject of the War Department embroglio. This resolution was offered by Mr. Brooks in view of the fact that the President to-day sent to Gen. Grant his closing communication, a document now being looking for with special interest by the whole country.

THE NEW IMPEACHMENT COMMITTEE have gone regularly to work and have summoned a large number of witnesses.

A WATCHHAUL.

A correspondent of the *Press* was examined to day as to whether he procured certain short-hand notes, but nothing was elicited.

GRANT CALLED TO TESTIFY.

It is said Gen. Grant will be called to-morrow virtually to testify in his own case and make evidence against the President.

ANOTHER INVESTIGATION.

The House Judiciary Committee, at their meeting this morning, resumed the investigation into the truth of a certain paragraph published in an evening paper concerning an alleged expression of opinion by one of the Justices in the Supreme Court adverse to the constitutionality of the reconstruction acts.

The editor of the journal was recalled and interrogated relative to the authorship of said paragraph. No information was elicited and without taking further action the Committee adjourned, although it is understood a resolution will be reported to the House asking the arrest and punishment of the witnesses for contempt in refusing to testify.

IN THE SENATE

to-day Mr. Wilson, of Massachusetts, presented a petition from certain enlisted men detailed as clerks and messengers in the War Department praying invalid pension, while so employed. These soldiers are now making double as much as they ever made before they were wounded, and yet they would hold on to pensions which had been granted them, on the plea that they were unable to make a living in consequence of their wounds.

THE DEFICIENCY BILL

has not yet been signed by the President. It was sent to him on the 31st ult, and will become a law without his signature, unless he acts upon it to-day or to-morrow. It contains an item of one half a million dollars for carrying on the work under the reconstruction acts.

CONSCIENCE.

There was received at the Treasury Department to-day a letter from Philadelphia, containing three hundred and fifty dollars to be credited to the conscience fund. The letter was signed by L. N. Faut, and says it was not paid heretofore owing to an insadvertence.

MINISTER TO ENGLAND.

It was rumored to-day that Judge Black, of Pennsylvania, will be nominated as Minister to Great Britain, in place of Minister Adams, but no one believes the story.

THE SECRETARY OF THE TREASURY.

Secretary McCulloch was at the Treasury Department to day. He has sufficiently recovered from his late injuries to be able to attend to his official duties.

AN INFAMOUS CHARACTER.

Your correspondent has several times referred to the infamous character of Gen. H. A. Barry, now member of the Mississippi Constitutional Convention, and stated that documents were here to establish the charges.

The Mississippi *State Journal* attempts to break the force of the statement by charging one Col. McBride with being your correspondent, and with much apparent confidence refers to Gen. Sol Meredith. Among letters on file is one from Gen. Meredith, stating Barry lived at Paducah in open adultery with a woman and was seen on the street with her. He says Barry's conduct was anything but gentlemanly. The *State Journal* must try again.

WEATHER AND RIVERS.

PITTSBURG, February 10.—The river is rising, with three and a half feet in the channel. The weather is clear; thermometer, 10°.

ST. LOUIS, February 10.—The weather is moderating, but is still very cold.

CINCINNATI, February 10.—The river is falling, with eleven feet four inches in the channel. Thermometer, 38°.

MILWAUKEE, Feb. 10.—The weather here is intensely cold. At 7 o'clock this p.m. the thermometer was at 16° below zero, at Winona, Minn., 35°, and at St. Paul, 40° below.

LOUISVILLE, Feb. 10.—The weather is cloudy, with the thermometer at 24°. The river has raised three feet at the foot of the Falls, and in the canal there is five feet five inches. Navigation in the lower Ohio is fully resumed. The Nick Longworth arrived from New Orleans to-morrow, and the low pressure Richmond on Wednesday.

FROM LOUISVILLE.

LOUISVILLE, February 10.—Hon. Jas. Guthrie sent in to day his resignation as United States Senator to the Governor, on account of his continued sickness and inability to go to Washington; and the Legislature is determined to start his successor on Tuesday, the 18th inst.

FROM MONTGOMERY.

MONTGOMERY, ALA., February 10.—Seventeen counties in South Alabama, embracing the largest negro counties, give a majority of 3700 votes against the Constitution. The high counties and Florida line counties will make it 10,000 behind the election last fall in the Convention vote.

ARKANSAS.

MORE RADICAL RASCALITY.

Special Dispatch to Memphis Appeal.]

LITTLE ROCK, February 10.—In the Convention Adams, of Izard county, presented his credentials, and asked to be sworn in. Several Radical members objected, because they had heard that Adams is not a citizen of Izard county. Cypert and Reynolds stated that they had known Adams to be a resident of Izard for fifteen years, and demanded his qualification; that his credentials were regular, and under the resolution of the Convention on the 22d of January, he was unquestionably entitled to the seat. Attempts to refer, postpone and reconsider were made, but the previous question was moved, the vote taken, and Adams admitted Twenty-five Radical members voted in the negative. Notwithstanding the adoption of the resolution, Brooks of Phillips, and McClure, the nominee of the Radical party for Supreme Judge, were among them.

As a question of veracity had been raised, Cypert asked for the reading of the minutes in reference to the cause, but the twenty-five who were so nefariously unscrupulous as to stultify themselves, objected, and the President ruled the reading out of order.

The Convention adjourned until seven this evening.

MISSISSIPPI.

INFAMOUS PROPOSITION.

BLACK AND WHITE POLICE.

Special Dispatch to Memphis Appeal.]

JACKSON, MISS., February 10.—Gibbs offered a resolution that all contracts with freedmen which prevent them from attending elections or political meetings, be declared null and void. All persons attempting to enforce such contracts be disfranchised five years. Referred.

Moore (colored) offered a resolution that the police force of each incorporated town or city be composed equally of loyal white and black citizens. Referred.

By Mr. Field—A resolution that the next Legislature enact that any person who will make oath before a magistrate that he or she is not worth more than twenty dollars, be relieved from all indebtedness. He said this would make up for deficiencies in the Bankrupt law of Congress. Resolution referred.

No progress yet in the work of making a Constitution.

CONGRESSIONAL.

HOUSE.

WASHINGTON, February 10.—Bills and resolutions were introduced as follows: To allow respondents in criminal proceedings to testify in United States courts held in States where the same is allowed by statutes. To provide for the exportation of distilled spirits in bond. To provide for a gradual return to specie payment by the purchase of legal tenders, on a sliding scale, for gold, commencing on and after the 1st of January, 1869, the United States to pay all the legal tenders dollar for dollar in gold, to equalize the contracts hereafter made for their payment in gold. Also for retiring the United States notes and establishing a free note banking system. Forextending the provisions of the act for the legal protection of all officers of the Revenue Department; and also for all civil and military officers for acts done during the rebellion, under the authority of the Executive of the Government of the United States. To abolish the specific tax for ad valorem duties on lumber, etc. Also in reference to the continuance of the Bureau in Tennessee. To regulate the terms of the United States Courts. One for the payment of pensions to drafted men. To regulate the use and inspection of steamboat boilers. One asking for the correspondence relative to the imprisonment of Antonio Pellecten, a citizen of the United States, and the confiscation of his property in Hayti, which was adopted.

A bill relative to the amendment of the Bankrupt laws, to the effect that a majority of the creditors must petition before the debtor can be compelled to go into involuntary bankruptcy.

To print 10,000 extra copies of the correspondence between the President and Grant.

One requesting the Reconstruction Committee to report whether further legislation is necessary to insure a more speedy restoration of the rebel States, with full political rights and sufficient guarantees.

Also a bill declaring it to be inexpedient to have any change or reduction of the banking system.

Paine offered a resolution declaring that the seat of government ought to be removed to the valley of the Mississippi, which was rejected, Yeas 72, Nays 97.

The Speaker presented several executive documents, including an extract from the proceedings of the Mississippi Convention relative to the cotton tax being applied to the relief of the poor, and a resolution of the Georgia Convention asking a loan of $30,000,000 to Southern planters. The House then drew for seats, after which the Speaker presented a message from the President in reference to the trial and conviction of American citizens in Great Britain and Ireland, and also on other subjects, which was appropriately referred.

Stevens asked leave and offered a resolution that the evidence taken on impeachment by the Judiciary Committee be referred to the Committee on Reconstruction, with leave to report at any time.

Randall and Brooks objected.

Stevens moved to suspend the rules.

Eldridge suggested that there would be no objection if the gentleman would consent that 50 000 copies of that testimony should be printed for the public.

Stevens said that he had no objection.

The Speaker remarked that all motions for printing extra copies of documents must be referred to the Committee on Printing.

Eldridge went on to say that the verdict of the people would be conclusive in regard to that testimony.

The Speaker asked Eldridge whether he desired to offer such a resolution for reference.

Eldridge said he did.

The Speaker said there being no objection the resolution of Eldridge would be referred to the Committee on Printing.

Brooks said he would not object if Stevens would offer a resolution which should be admitted and adopted directing the General of the Army to send a copy of the President's last letter to him in reference to the Secretary of War to the House.

Stevens said he would agree to this, and there being no objection the resolution was adopted, and then the objection having been withdrawn, Stevens' resolution first offered was adopted.

The House then went into a Committee of the Whole on the State of the Union, with Wilson, of Iowa, in the chair, and resumed the consideration of the legislative and judicial appropriation bill.

Loflin, chairman of the House Printing Committee, stated the cost of printing for the years 1866 and 1867 at $454,339, in currency, against $655,210 in 1859 and 1860, on a gold basis. The twenty per cent. additional compensation was added to the salaries of the employees in the Congressional Library and the female employees in the Public Printing Office.

A discussion arose in relation to an appropriation of $100,000 for the payment of judgments which may be rendered by the Court of Claims, but without coming to a decision the committee rose. The Speaker presented a communication from the Secretary of the Navy transmitting the papers of the courtmartial in the case of Second Engineer Sawyer, for speaking disrespectfully of the President of the United States, suspending him for one year. Shenck, while admitting that disrespect to a superior officer should be punished, characterized the informer in the case as a poor, mean, dirty "pimp," and after further debate, the papers were referred to the Naval Committee.

SENATE.

Ramsey presented a petition from the citizens of Colorado, asking admission as a State, which was referred.

The discussion of the supplementary reconstruction bill was then resumed.

FROM NEW ORLEANS.

NEW ORLEANS, February 10.—In the Convention to-day a resolution was offered to pay each member and employee thirty per cent over their per diem pay and directing the clerk to issue warrants for the amount. Lies over.

This was offered on account of members' warrants being sold at a heavy discount.

Ordinances adopted providing that the same Registers and Commissioners appointed by the Major General commanding to superintend the election for the ratification of the Constitution shall superintend the election of State officers at the same time, provided they be authorized by the Commanding General to act; if not authorized, the committee of seven, appointed by the Convention, to take charge of the whole matter of ratification of the Constitution and the election of civil officers, will appoint Registers and Commissioners of election to hold elections as herein provided for. All civil officers thus elected shall enter upon the discharge of their duties on the second Monday after the official promulgation of the ratification of the Constitution, and continue in office until their legally chosen successors be duly inducted into office. The Legislature to hold its first session at Baton Rouge on the third Monday after the official promulgation and ratification of the Constitution, and proceed immediately to vote upon the fourteenth amendment of the Constitution of the United States, and to have no power to enact any law until said article is acted upon; also providing for the pay of Registers, Commissioners and other officers necessary to carry out the provisions of this act, out of the funds raised by virtue of the tax ordinance, not otherwise appropriated; also to appoint a committee of seven, called "Committee on the State," to revise, amend, correct and have printed this Constitution.

Pending the discussion of a resolution providing for the appointment and prescribing the duties and powers of the Board of Registration, the Convention adjourned.

FROM WASHINGTON.

WASHINGTON, February 10.—In the Supreme Court to day Associate Justice Nelson announced an elaborate opinion, in the case of the State of Georgia against Secretary Stanton, Gen. Grant and Maj. Gen. Pope, praying, for reasons set forth in the petition, that they may be restrained from doing certain acts, contemplated by the reconstruction laws. The Court dismissed the bill for the reason that it presents political questions, and therefore does not fall under its jurisdiction. His opinion, the Judge decided, was applicable to a similar petition from Mississippi.

The sub-Committee on Reconstruction resumed this morning the examination of Stetson, the correspondent of the New York *World*, in relation to his conversation with the President on the subject of the Grant correspondences, which was referred to the House Committee.

The President sent a message to the House to-day inclosing a communication from the Secretary of the Navy relative to depredations upon, and the future care of the lands for supplying timber for the Navy. These lands were placed under the control of the Navy Department, and are scattered through Florida, Mississippi and Alabama, embracing 264,000 acres. The Secretary says that if these lands are to be maintained for the purpose for which they have been protected for half a century, an appropriation of $20,000 for salaries and other necessary expenses will be required.

The President to day sent in the following nominations to the Senate: Chas. G. Tuckerman, as Minister Resident to Greece; Capt. Green, as Commodore in the Navy, on the active list, vice Commodore Cicero Price, retired; Commodore J. Cooper, as Captain on the active list, vice Capt. Green, nominated for promotion.

The Senate has confirmed the following: L. Scott Stewart, of Pennsylvania, as Consul to Hiago and Osaca, and W. J. Brittain as Assessor of Internal Revenue for the First District of Mississippi.

The Secretary of State, in reply to a resolution of the House, sent in to-day an immense mass of documents relative to the protection of American citizens abroad. Some of the papers are dated two years back. The Secretary promises another portion as soon as they are prepared.

FOREIGN.

LONDON, February 10.—Capt. McKay, captured at Cork for planning the recent attack on Martello tower, at Dunceanon, was brought up for examination Saturday. The evidence seemed conclusive, and he was fully committed for trial. Several rioters who attempted to rescue McKay were also examined and committed. It seems in the melee two policemen were shot and dangerously wounded.

THE MARKE CASE.—The case of Angelo Marre, charged with shooting James Whitesell some time since, was before Judge Hunter yesterday, and continued till to-day at 1 p.m.

THE gentleman who picked up a small black Pup, yesterday, on Madison near Third street, will confer a favor by returning the same to 100 Madison street.

THE COUNTY COURT.—In the official journal of the county the proceedings of the County Court, had on the fifth, was published on the tenth. Who is to blame for the late news, the County Court, the Clerk, or the half sheet official journal?

CONTINUED.—[illegible] Cosgrove, charged in the Criminal Court some days ago with shooting Tom [illegible] was released on bail, will be [illegible] before the proper tribunal on Thursday, at three o'clock.

ANOTHER CANDIDATE.—In our announcement column will be found the card of James Ready, who is a candidate for the office of Marshal of the Municipal Court. He is a white man, and subject to the decision of the white man's party.

THE WEATHER.—Yesterday was a cold, stormy, disagreeable day. In the morning the wind was from the northwest, and continued blowing steadily during the day. A small quantity of snow fell, which gave the streets quite a wintersh appearance. The prospect for pleasant weather to-day is very good. We do not desire any more cold snaps.

THE BANKRUPT LAW.—An impression generally prevails that no petition in bankruptcy can be filed after March 1st, and that the benefits of the law then expire by limitation. This is a mistake, as the law did not go into operation until June 1, 1867. Advantage may, therefore, be taken of its provisions for twelve months from that date.

A STORE ROBBERY.—A smart negro, who rejoices in the name of Jas. Henry, was arrested yesterday by Capt. Simonds, charged with stealing a quantity of groceries from the store of D. C. Anderson & Son, on the corner of Adams and Third street. The goods were recovered and James looked up. He will probably be sent over the street to-morrow.

DELEGATES TAKE NOTICE.—All delegates to the Democratic Conservative Convention, to be held on the 14th inst., will be required to bring with them a certificate of their appointment, signed by the chairman and secretary of the meeting at which they were appointed. No proxies will be admitted, and their certificates will be their credentials. Let there be no conflict or confusion. By order of the County Executive Committee.

EMMONS & SON, No. 10 Jefferson street and 383 Main street, have received the Police News, Police Gazette, Harper's Weekly, Frank Leslie, New York Weekly, Boys' and Girls' Weekly, Scientific American, Southern Society, Scottish American, Last Sensation, Round Table, The Revolution, Peterson's Magazine and Pleasant Hours, for March. Also a lot of new valentines received. Now is your time to buy for the 14th of the month. They are selling for very low prices. Now is your chance.

CONSERVATIVE MEETING.—Some days since it was suggested that a meeting of the Conservative citizens, or convention of the white man's party, be held at the hall of the Chamber of Commerce on Wednesday evening next. Col. John Heart, Secretary of the Chamber, informed us yesterday that according to the terms of the lease no political or public meeting could be held in the hall. *Query.*—How is it that Frank Blair, of Missouri, had a meeting there; and the citizens, also, very recently convened? Why is it now deemed offensive that a patriotic assemblage should meet there, whose objects and purposes are as important to the best interests of the country as any that could be designated? There must be, evidently, a screw loose somewhere.

GONE TO NASHVILLE.—We clip the following from an evening paper of yesterday:

Hon. J. E. Merriman, of the Board of County Commissioners, leaves this evening for Nashville, to secure a more efficient law for the collection of State and County taxes. It is said that if a half dozen property holders of this county would pay the taxes long since due, that every piece of scrip would be taken off the market and the treasury be flush. We trust Mr. Merriman will succeed.

Who authorized the trip, who will be benefitted by it, and who pays the cost?

CITY MATTERS.

Called Meeting of the Board of Mayor and Aldermen Yesterday—Important Matters Discussed, etc., etc.—Read the Report.

A called meeting of the Board of Mayor and Aldermen was held yesterday, in their chamber at the Exchange building. The Board was called to order by the Chairman, Judge Swayne, when on calling the roll, there were found to be present, Acting Mayor McDavitt, Chairman Swayne, Aldermen Glancy, Joyce, Johnson, Wickersham, Brown, Cartwright, Holst, O'Donnell, Cicalla, Renner, Lemon, Passmore, and Ellis.

The Chairman stated that the Board had been called together by order of His Honor, the Acting Mayor, and that a message from him would be presented. The following was then read:

MESSAGE FROM THE MAYOR.

MAYOR'S OFFICE, MEMPHIS, Feb. 10, 1868.
Hon. Board of Aldermen:

Gentlemen: In consequence of unfinished business remaining over from your last regular meeting of a necessary character to be acted on, I have deemed it advisable to call you together, in extraordinary session.

It is all important that some action be taken that will enable the revenue officers to settle with the Treasurer. In many instances they have received orders on the Controller from the creditors of the city, which are to be entered on his books, and in consequence of refusal to this action they cannot use the same. I would most respectfully advise that the Controller be directed to issue his warrant to the revenue officers for orders that they may hold and may hereafter receive from parties where the same is standing to the credit of the drawer.

In this way there is no scrip thrown out. It passes from the hands of the Controller into the hands of the revenue officer, and from that to the Treasurer, and is then cancelled.

It is important that you fix the salaries of the officers and men of the Fire Department, and elect them; and all other unfinished business remaining over from your last session I hope you will wind up.

CITIZENS' MEETING.

The citizens' meeting has terminated, and the committee has made a voluminous report, soft in tone, chaste in rhetoric and ingeniously gotten up; but the subject matter which your Committee on Finance submit to the property holders to consider—money to carry on the city government for a few months—has been lost sight of in this report. Many very good suggestions are embodied in the report, and which, if carried out, would involve us in great difficulty.

The citizens' meeting proposed to ask from the Legislature that which they have already enacted, and which is already a part of the city charter.

1. The corporation has now ample authority to purchase for the benefit of the city real estate, both within and without the city limits, and to sell or dispose of the same in like manner.

2. By a recent act of the Legislature the Mayor and Aldermen have power by a vote of the qualified voters of the city to issue funding bonds to the extent of the past due debt of the city.

3. With regard to the payment of the interest on the bonds, almost the identical language is used in the present city charter as is proposed to be re-enacted by the committee.

4. The Board of Mayor and Aldermen have already been empowered by Legislative enactment to set aside semi-annually in the months of January and July in each year a sum not less than five thousand dollars for the purpose of retiring the bonds of the city.

To make the last binding it is only necessary for the present Board to say at what time it shall take effect.

5. The financial statement required by the committee is regularly made out annually, and the appropriation bill passed in shape of an ordinance levying a tax to meet the various expenses of the city government.

6. The proposition to repeal all authority to issue city scrip or any note or paper intended to circulate as money, or draw a warrant on the treasury for money not in the treasury, is one which I can heartily approve if it is intended to prevent the wholesale flooding of the market with city paper, which will destroy the system of brokerage in city securities which has for a long time been practiced in this city. It might also have a salutary effect upon the Board of Aldermen, and prevent much extravagance which might otherwise be indulged in. This authority to issue any note or paper intended to circulate as money, if repealed, will, however, take away the power of the Board in the issuance of "treasury warrants," a species of city notes not now in circulation, but which we may desire hereafter to issue, and which may prove of much benefit to the city and to the business community.

7. The assessment of the real estate of the city at cash value, and the levy of a tax not exceeding one and one-half per cent. on the [illegible] dollar of the city charter. The [illegible] rate of one per cent. is also [illegible] under the present charter of the city of Memphis, and any further legislation would appear to be unnecessary.

9. The annual statement of the financial condition of the city government is already provided for, and is regularly made out every year.

I have endeavored to notice, briefly, the amendments to the city charter proposed by the Committee, and they are for the most part a portion of the organic law of the corporation, it will, of course, be necessary to ask of the Legislature any further action in the premises.

I recommend that the proposed amendments be referred to a Special Committee, with the City Attorney, for report.

I also recommend that said committee be instructed to arrange with such parts as may be opposed to a provision to enable the city to more promptly and effectually collect her past and future accruing taxes.

The reports, etc., of the citizens' meeting will be submitted to you this evening.

E. McDAVITT,
Mayor ad tem.

The proceedings of the citizens' meeting was then read, (a report of which we published in our issue of Sunday).

Alderman Passmore made a very long speech, arguing against the adoption of the report. He took it up section by section, and discussed it fully. The article in the *Bulletin* of Sunday he regarded as a direct insult to the Board. He did not desire to cast any reflection on the gentlemen composing the citizens' meeting. They doubtless did what they considered to be right. The public meetings held in reference to these matters had never amounted to much; they might make good suggestions, but they were never carried out. If Col. Robinson Topp, the Chairman of that committee, would come up and pay the thirty-three thousand dollars which he owed to the city, it would carry them along for a time; but no, this gentleman was willing to offer reports and documents for discussion, but what did all this amount to? The large property holders of the city seemed to take but little interest in the proceedings of the Board. He had rarely seen any of them present at the meetings of the Board.

Alderman Moffatt objected to the adoption of the report and discussed it very fully, giving the committee a severe, scathing overhauling for their action, charging that two of them had belonged to the military commission, and if some of them would come up and pay their indebtedness to the city, it would not only be creditable to them but of benefit to the city. A large amount of ability had been combined to produce this lengthy report, which a school boy could tear to pieces in five minutes.

"Fools rush in where angels fear to tread."

Acting Mayor McDavitt briefly explained his action in reference to the calling of and holding the citizens' meeting.

Alderman Renner was opposed to the adoption of the report. He thought the Finance Committee were the proper parties to conduct this matter, and not a few outsiders who did not have the interests of the poor man at heart. As a matter of courtesy he would vote for its reception, but scorned its adoption.

Alderman Johnson spoke at length in opposition to the report.

Alderman Passmore was in favor of paying at least the interest on the debt of the city. It should be regularly paid, even if the real estate of the corporation should be sold to meet it. If this course were pursued plenty of means could be obtained. Capitalists in other cities were ready to loan if they were certain of getting their interest regularly. He found fault with the course of the Acting Mayor in his published card calling the citizens' meeting. A few only of the wealthy were invited. The Hebrews and small property holders "were left out in the cold." He was willing to leave the whole matter to the Finance Committee and opposed the issuance of any more scrip.

The report was received,

Alderman Johnson moved that the report take the course recommended in the Mayor's message.

Alderman Passmore moved that the report be spread upon the minutes.

On motion of Alderman Moffatt the report was tabled by the following vote: Yeas—Joyce, Holst, O'Donnell, Renner, Lemon, Passmore, Moffatt and Ellis. Nays—Glancy, Cartwright, Johnson and Cicalla.

Alderman Passmore submitted a report of the Mayor, which was received and adopted.

Alderman Moffatt offered a resolution to the effect that the chairman of the Finance Committee and the City Attorney be appointed a committee to suggest such amendments to the city charter as may be deemed necessary in the premises.

Alderman Renner moved that on and after the first of next month the fire department be suspended, the stock put in charge of a watchman, and the horses turned over to the city stables.

A motion made by Alderman Glancy to table the resolution was withdrawn.

Alderman Passmore favored the passage of the resolution, unless some means could be devised to pay employees as they should be paid.

Alderman Glancy said that fifteen men had not paid their taxes for two years, while the poor man had to pay regularly. While he was in favor of the carrying out of the resolution, he did not desire to place the property of those who paid their taxes on a level with those who had not.

Alderman Renner pressed the passage of his resolution.

Alderman Passmore asked the Mayor if he had asked the Underwriters to assist the city in paying the fire department.

The Mayor said he had made such request, but had not received any reply.

Alderman Passmore said he was informed that some of the home companies were willing to assist the city in this matter but foreign companies would not co operate. The resolution was adopted.

Alderman Moffatt desired to know from the Tax Collector what orders had been received in payment of taxes.

Mr. Bowen stated that he had received orders from bankers and brokers who had scrip to their credit. He had now on hand the orders of Murphy & Cash, amounting to seven or eight thousand dollars.

Alderman Moffatt was opposed to this mode of doing business and moved that the City Tax Collector be instructed to receive nothing for taxes except cash or city scrip.

Alderman Passmore said that he had been informed that the firm of Murphy & Cash were in the habit of either going or sending to the levee for the purpose of selling scrip to the steamers and giving orders on the Tax Collector in payment.

Alderman Moffatt denounced in strong terms the action of the Tax Collector in this matter.

Alderman Johnson opposed the passage of the resolution, and defended the action of the Tax Collector, and offered a resolution in lieu of that offered by Alderman Moffatt.

The motion of Alderman Johnson was lost.

The motion of Alderman Moffatt was then put and adopted by the following vote: Yeas—Aldermen Glancy, Joyce, Cartwright, O'Donnell, Cicalla, Renner, Passmore, Moffatt and Ellis; nays, Johnson, Holst and Lemon.

On motion the Board adjourned.

AMUSEMENTS.

THE BLACK CROOK.—Owing to the immense amount of labor necessary to produce the long expected drama of the *Black Crook*, the doors of the New Memphis were closed last night. The piece will positively be produced to night in good style, and if not quite equal to Niblo's, will be magnificent. Manager Thompson has expended large sums of money to produce the piece as it should be put forth, and it is to be hoped that his liberality will be amply rewarded. The entire company to appear will number about one hundred people. Seats are being rapidly sold.

THE VARIETIES.—Owing to the non-opening of the Black Crook at the New Memphis Theater last night the Varieties was filled with a larger audience than usual. The singing of Miss Helen Devere, the dancing of the members of the ballet, the character acting of Oscar Willis, Tony Benton, Johnny Hart, and others, met with universal satisfaction. Charley Broom manages things to a dot.

THE COMING CIRCUS.—The great combination show, circus and menagerie, of John Robinson, will make a two days stand here this week, commencing on Friday afternoon.

DRAMATIC RESUME.—Mr. Edwin Forrest concluded an engagement of five nights on Friday evening. His plays were *Richelieu, Othello, Jack Cade, Metamora* and *The Gladiator*. In all of them he showed himself the great artist who deserves to wear the champion-belt in the dramatic arena. Many years have passed since we saw the two last characters, but with the exception of the elasticity, the vigor and springiness of his earlier manhood, which made his action at times terrific, and were set down by hypercriticism to exaggeration although natural to his extraordinary physique, there was the same towering grandeur, the same magnificent delineation, the same ingenuity that sounded the depths of passion, and the same thrillingly musical voice and scholastic reading and pronunciation evolving the worth of each word, that charmed "lang syne." The house although good, were not great until the two last nights when the penultimate *was* great, and the last immense. He was more than once called before the curtain, but that might have been spared as a common compliment "more honored in the breach than in the observance."

Saturday night was given up to the lecture of Admiral Semmes on the Cruise of the Alabama, which a common detractor has attempted to disparage, although the audience was, if not equal to the occasion, at least respectable in numbers, and much more so in its quality. The lecture was fine, and heard with unabated interest from first to last.

Last evening the intolerable weather, and the expediency of further preparation induced the postponement of McDonough's *Black Crook* until this evening, when it will be presented with all its grand and striking paraphernalia, its striking *elegantes*, scenic effects and sprightly music. Never having seen it we can only speak from the experience of others whose eyes were dazzled by beauty, agility, grace and *aplomb* in spectacle and dance.

Frank Mayo has been doing a fair business at DeBar's, St. Louis. He plays this week. He performed *Othello* on Friday evening at his benefit.

Ole Bull is to give a concert at Quincy, Ill., on Thursday evening next, assisted by Mrs. Varian (James) Hoffman, Hoffman the pianist, and Ignatz Pollock the baritone.

Harry Macarthy was still at Atlanta on the 7th.

The Atlanta Opera House is to be sold at public outcry on the 8th of April by Wm. Markham, receiver.

Booth will play a week's engagement at Detroit, commencing on the 17th.

Under the Gaslight had its last night of a four or five weeks' run at Louisville on Saturday night.

MY SHAWL!—This gentleman who received a shawl through mistake at the Overton barber shop, will confer a favor by returning the same to
HENRY MOODE,
feb 1 3t Appeal Composing Room.

GENUINE French corsets, purchased at the late bankrupt sales, can now be had at less than half price, at retail, by calling at M. Wolf & Co.'s, 230 Main street.

WE advise all who are in want of Carpeting, to call on Royster, Trezevant & Co. They are selling their elegant stock of Carpets at fifty per cent. less than the regular dealers.

FOR CONSTABLE.—Among the aspirants for the position of Constable of the Fifth Civil District, we notice the name of young our friend, Mr. James O'Connor. Mr. O'Connor is an old resident, and for many years connected with the newspapers of our city. He has at all times been an earnest supporter of the Conservative cause, and if elected to the position he seeks, will fill it with credit, both to himself and constituents. Delegates don't forget James.

CONSERVATIVE RALLY.—A meeting of the citizens of the Eighth ward was held last night in a store on Poplar street, opposite to the market. The meeting having been called to order, the Chair was occupied by Alderman Thomas Moffatt. Several influential speakers addressed the meeting on the political questions of the day. The following resolution was unanimously adopted:

Resolved, That the citizens of the Eighth ward are invited to attend a meeting of the Conservative citizens of Memphis to be held in the City Hall on Wednesday afternoon at 2:30 o'clock, and that the citizens of this ward indorse the objects for which this meeting is called.

Other important business having been transacted, the meeting adjourned until Thursday evening next, at 7:30 o'clock.

CORRECTION.—We regret that there should be occasion for the following correction of an unseemly misprint in Sunday's issue of the APPEAL. Yet it affords an opportunity to direct attention to the object of the meeting, and express our full indorsement of its objects, its constitution, and join in the wish that the work of organization may go on without obstruction, or delay of any sort:

FINANCIAL AND COMMERCIAL.

OFFICE OF THE DAILY APPEAL, MEMPHIS, February 10, 1868.

Money matters are much the same as they were on Saturday. Eastern Exchange is offered in such quantities that our banks are compelled to decline taking from others than regular customers. Currency is still scarce owing to the delay (occasioned by bad weather) in the arrival of shipments past due from the East. Rates are somewhat irregular. A few discount houses accommodate their depositors in a small way at ½c discount, while others are discounting cotton bills at ¾ to ⅞c. The selling rate is uniform at par, except on New Orleans, which is held at ¼c premium.

Gold opened in New York at 143¼c and closed at 143¾. There is very little doing here. Offerings are confined to amounts which rarely reach $100, and as there is no counter demand brokers are compelled to ship. We quote buying at 140 to 141c.

City Scrip is decidedly dull. There is none offered, and the speculative demand which existed some days ago has apparently ceased. Brokers are loth to buy at a better figure than 40c, while they offer to sell rapidly at 44 to 46c in a large and small way.

We have no change to report in County Scrip. It is dull and nominal at 60 to 62c selling.

Police Scrip is in but moderate demand. Brokers buy at 80c and sell at 84 to 85c.

The opening Liverpool dispatch to-day quoted that market active; Uplands, 8 to 8¼d; Orleans, 8¼ to 8¾d. At noon the market was buoyant with sales to arrive at 8¾d. At the close the feeling was buoyant; Uplands, 8¼ to 8¾d; Orleans, 8¾ to 8¾d. Sales for the day, 15000 bales. The New York market, owing to the favorable tenor of the opening Liverpool dispatch, was active; Middlings, 20 to 20¼c; Orleans, 21c; Low Middlings, 19¼ to 19½c. It closed firm with a fair demand. Sales, 4000 bales. Our market was active during the day, and sales were only limited by the lack of currency, which is still the great drawback to operations. Stained cottons were in good demand as well as the finer grades. A list of 250 bales Middlings were taken at 19½c, and at the close we think that was not an outside figure, though the majority of sales took place at our quotations:

Ordinary	15 @16
Good Ordinary	16½@17
Low Middling	18¾@19
Middling	19¾@20
Low Middling	20 @20½
Good Middling	21 @22
